

Skid Mount Pumps

STYLE

Hale's Skid Mount Pumps provide a complete, self-sustaining, fire suppression package. Combining a unique mounting platform, for fixed or mobile positioning of the unit, with a fully integrated diesel engine and plumbing system for 300 up to 5,000 GPM of water delivery capability.

Features

- Emissions compliant diesel engine with up to 600HP performance
- Easily monitored and controlled engine systems
- Generates NFPA 1901 rated flows from 300 GPM (1,135 L/min) to 5,000 GPM (18,927 L/min)
- Integrated base with or without fuel tank for extended operation
- Hard, fine grain bronze, mixed flow impeller design is hand ground and balanced for maximum performance
- For minimal maintenance the spring-loaded mechanical seal is self-adjusting and self-lubricating
- Heavy duty precision ground, deep groove bearings used for long-life
- Heat treated one piece stainless steel pump shaft has been designed for strength and minimize pump deflection
- Bronze clearance ring is easily replaceable
- All stainless steel manifolding for corrosion resistance
- Ergonomically positioned and easily actuated intake and discharge valves
