MG

STYLE

Hale’s MG pump is our most compact midship pump. Designed to fill the gap between a standard attack pump and a full-range midship pump the Lightweight and compact MG pump is built to fit the chassis of most commercially built fire trucks and tankers, “mini,” “midi,” or attack pumpers, field or brush trucks, and mid or full-size tankers.

Features

- Generates NFPA 1901 rated flows up to 1000 GPM (3785 L/min) from draft
- Hard, fine grain bronze, mixed flow impeller design is hand ground and balanced for maximum performance
- For minimal maintenance the spring-loaded mechanical seal is self-adjusting and self-lubricating
- Heavy duty precision ground, deep groove bearings used for long-life
- Heat treated one piece stainless steel pump shaft has been designed for strength and to minimize pump deflection
- Bronze clearance ring is easily replaceable
- Heavy-duty 16,000 lb. feet of torque split shaft drive gearbox rating

Specifications

Certification(s)	NFPA 1901 COMPLIANT

Applications/Solutions

- Fire OEMs
- Firefighting - Structural
- Marine
